

Senior Backend Developer / Permanent contract

BACKEND DEVELOPER

We are looking for an experienced TypeScript/nodeJS developer with interest in building mobile backends to help us build an awesome product, that helps people quit smoking easily. Right now the product runs completely on firebase cloud services and needs to be migrated to a standalone backend. You will start from scratch creating the architecture and implementing it, as well as creating the deployment for it.

YOU WILL

- migrate the backend from a firebase cloud function based solution to a standalone backend.
- be responsible for the architecture as well as the deployment.
- be the first employee hired for backend related topics and the potential to become a leading role for the backend team in the future.
- work closely together with our app team
- work directly with the founders and shape our tech-driven startup.

YOU HAVE EXPERIENCE IN

- experience in building scalable backends for mobile applications
- experience in TypeScript
- experience in deploying backend code for production
- experience in CI/CD
- experience in TDD
- experience in containerization

TECHNOLOGY THAT CHANGES THE WORLD

Every 4 seconds one person dies from the consequences of smoking. That sums up to over 8 million people a year that will leave this planet.

We, the three founders, share the passion and the vision to use newest technology to change the face of the world. That's why we founded Smokeless - a totally new and disrupting solution that will revolutionize the medical sector.

Smokeless is the first holistic solution worldwide that conquers smoking addiction based on smart technology. Our solution consists of a hardware device, as well as a software part in form of an app.

We are supported by names like Beurer medical, Hubert Burda Media, UnternehmertumX, Xpreneurs and some famous founders - come and join us to change the world.

WHERE? We have a hybrid work model with partial „work from home“ and flexible working hours. We are looking for someone who is located in Munich or willing to move to Munich for this position.

WE WILL PROVIDE. Additional to a salary and all the necessary resources (Notebook, test-devices, tools, ...), we offer you being part of an awesome team in a fast-paced startup environment to work with.
